Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

(1) In claim 14, line 3, after "extending", --from said passageway and-- has been added.

(2) In claim 14, lines 3-4, "from said passageway" has been deleted.

2. Authorization for this examiner's amendment was given in a telephone interview with Michele Glessner on May 13, 2009.

Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

Claims 14 and 16-24 are allowable over the prior art of record because none of the prior art of record taken alone or in combination thereof shows or fairly suggests the claimed geometry (see Fig.4) in which a radius of curvature (R) of a curved portion (120) is greater than a distance (D) defined as the distance between an axis (A) along which an essentially linear passageway (112) extends to an axis of rotation (C) of the cutting head, wherein the curved portion (120) extends from the passageway (112) and is between an exit region (115) for a cutter string and a periphery region of the head.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
